Voltage:	120v/240v
Volts Regulation:	10% +-
Frequency:	50/60Hz
Plugs:	4 x 20a GFCI
Protection:	3 Circuit Breaker (20a) GFCI Plugs
Noise:	70db
Length:	50 inches
Width:	25 inches
Height:	30.47 inches
Weight:	270 lbs (approx.)
Shipping Length:	52 inches
Shipping Width:	27 inches
Shipping Weight:	32.47 inches
Frame:	1-1/4" Tubing
Wheel:	10" Solid Rubber

CONTROL PANEL LAYOUT

Voltage Selector Switch (120/240vac)
120vac Receptacle with GFCI
Engine Start Switch
Grounding Terminal
4 x 20a GFCI plugs
3 Circuit Breaker (20a) GFCI Plugs
Run time (Timer)

Easy Maintenance:

Rinse the tank with a garden hose every 3 days and this will stop the build up of calcium. We recommend spring/distilled water only to be used. NO salt water.

STOP PAYING HIGH PRICES TO THE ELECTRIC COMPANIES

In the event of a power outage use our generator to power your lights, fridge, computers and more.

IT PAYS FOR ITSELF!
